Part II, Section B, Line 10:

CCF was established in September of 2014 for the purposes of providing educational stipends, scholarships, health care, economic skills development for marginalized individuals and their families in Nepal. Our expectation was to raise between \$30,000 to \$40,000 a year for the programs, including the Deurali Community Service Center Basari Clinic, that was built in 2010. On April 25, 2015 Nepal experienced a 7.9 magnitude earthquake and the every program that CCF was involved with was impacted heavily by the earthquake as were many others. The Deurali Community Service Center Basari Clinic was completely destroyed. CCF was immediately identified as a reliable and trusted source for earthquake relief because of its founders 30 years of connections to Nepal. The clinic had to be rebuilt and much relief work had to be done. Because of our trusted and valuable relationships in Nepal we were able to receive donations and distribute them widely. We were able to rebuild the Basari Clinic by March of 2016. Please see <http://consciousconnectionsfoundation.org/nepalearthquakerelief/> for more details about our earthquake relief work from 2015-2017.

The total in Section B Line 10 column (c) 2015 are funds specifically donated for Earthquake relief in 2015=\$172,422.00

The total in Section B Line 10 column (d) 2016 are funds specifically donated for Earthquake relief in 2016=\$17,233

CCF was no longer soliciting funds for earthquake relief in 2017 and is currently finishing earthquake related projects with funds remaining.

Conscious Connections Foundation (CCF) understands the positive change that comes from empowering women and educating their daughters in Nepal. We have seen the lack of infrastructural support for women who are often the sole income earners for their entire extended families and the impact this has on their daughters, who are often taken out of school due to lack of finances. The longer a girl is able to stay in school the longer she remains unmarried and the more choice she has in life. "Around the world, girls face complex

(continued from page 2) physical, cultural and financial barriers in accessing education. As a girl grows older the fight to get an education becomes even harder. Her family must be willing to pay school fees....She may be forced to marry. And she often lacks the support she needs to learn. Yet, we know that educating girls can transform lives, families, communities, and entire countries. When girls are educated, they lead healthier and more productive lives. They gain the skills, knowledge, and confidence to break the cycle of poverty and help strengthen their societies." [www.letgirlslearn.gov](http://www.letgirlslearn.gov)

CCF's fundraising for girl's education came into being to support a program created by the Association for Craft Producers (ACP in Nepal) to give struggling artisans the funds necessary to keep their children, especially their girl children, in school. ACP is a Nepali based, not for profit, Fair Trade organization providing services to low-income Nepalese craft producers to help them establish better lives for themselves and their families.

In the 1990's ACP started their educational stipend allowance for producers to help them keep their girl children in school. ACP provides a "girl child" stipend to help struggling families keep their girls in school without any cost to the family. The family in return provides monthly evidence of the girl's attendance and progress in school. ACP found that even this small stipend helped many families and girls were, as a result, staying in school. Due to lack of a consistent funding source, however, and due to high demand, the stipend could only be extended to each child for a maximum of 3 years. Many girls were forced to leave school after the 3 year stipend was exhausted leaving them vulnerable and without education. It was obvious to CCF that ACP had an effective program that children and families wanted to take part in but that they needed a reliable funding partner to create the stability in their program so that all children could remain in school for their entire 1-10 year education.

Every year CCF raises funds and makes grants to ACP to strengthen their educational stipend program. ACP administers the funds raised by CCF and understands CCF's desire to focus on girls but their stipend is now also open to boys in need as well. They feel that no child should want for education. Therefore, although CCF emphasizes girl's education we cannot guarantee to our donors that all of the funds raised go exclusively to girls. We do know, however, that all funds go to girls first and then, when necessary, to boys in need. For more detailed information on the history of this program please visit CCF's website at [www.consciousconnectionsfoundation.org](http://www.consciousconnectionsfoundation.org) and read our Part 1 of our 2016 full annual report.

In early 2015, 75 children were enrolled in the program, 50% girls and 50% boys and by July and additional 25 students were added bringing the total to 100 students for the 2015/16 school year. In 2017 that number rose to 120 children. By the end of 2017, according to ACP's records, their child education program has helped over 590 children stay in school longer than they would have otherwise been able.

## How ACP's Educational Program works:

ACP's Child Education Fund is run and administered entirely by Meera Bhatteai, the Executive Director of ACP and Revita Shrestha, the head of the social programs department of ACP. Meera and Revita work hard to make this program successful. Applications for stipends are submitted and reviewed annually and stipends are given on a monthly basis as proof of attendance and progress of each student is provided. Any family applying for a stipend must first get it for their girl child, if there is no girl child in the family, or if the family qualifies for more than one stipend then a boy can receive it. An annual event of games and acknowledgement of top scholars is held at ACP for all of the children and their parents to congratulate them on their successful participation.

CCF is currently the major donor/supporter of ACP's Child Education Fund. This makes the program vulnerable. As a result, in 2015 CCF made a commitment to ACP to help them create a solid financial foundation for the program for the years ahead. CCF agreed to raise \$25,000 a year from 2015-2019 for a total of \$100,000, part to be used for stipends and part to enable ACP to create reserves for the programs continued operation. Creating reserves has been an important issue for ACP because they do not want to promise stipends if they don't have the funds to follow through with their commitment. They also want to be able to cover inflation and be able to expand the stipends to eligible students for their entire 10 year education. At the end of 2019 ACP hopes to add 20 eligible children each year for the following 5 years with a maximum of 200 students enrolled each year.

According to Revita Shrestha, "every year ACP's Child Education Fund has targeted one more goal and has achieved it, whether it is increasing the monthly stipend, the number of children supported or extending the years of support. In 2017 the program continued to be a success. There are currently 117 children enrolled and each child receives \$10 per month as their educational stipend."

In an email to CCF, Revita stated that in 2016 the program gained more in popularity as the number of producer families applying for the program increased dramatically. Now there are hundreds of staff/producers getting the benefit and they are extremely appreciative. There are instances where producers that have planned to discontinue their work have decided otherwise, as they did not want to pass up the scholarship for their children. "The Child Education Fund is considered, by far, as one of the most appreciated and successful benefit packages provided to the producers. It has continued to bestow a positive impact in the lives of the children whose attainment of education was once in question due to their financial instability."

Line 29) Deurali Community Service Center Clinic Salaries-\$2840 grant

Impact: In 2017 approximately 10 people per day visit the clinic for primary health care concerns- approximately 3000 people per year. 3 local women are employed at the clinic and receive well paid salaries. 7 villages in remote Nepal have access to primary health care within a 30 minute walk and many other even more remote villages can access the clinic.

The Deurali Community Service Center's Baseri Clinic is located in the remote village of Dhadagaun, Nepal. The clinic was established because it was identified as an area without basic healthcare and because lack of access to basic healthcare for even the simplest issues can turn fatal. Dhadagaun needed a primary healthcare facility to assess and address these basic needs.

The clinic was build using private funds and opened in February of 2010, serving thousands of people in 7 nearby communities and even more in remote areas. Within 7 months of opening, over 1600 patients had been seen at the clinic for everything from maternal healthcare issues to burns, breaks, and intestinal disorders. When CCF was created in 2014 the clinic became a project of CCF. Tragically on April 25, 2015 the Baseri clinic was reduced to rubble in the massive 7.9 earthquake that struck Nepal. With CCF's help a temporary cliic was constructed within 2 weeks of the earthquake, new land was purchased and a beautiful 5 room, insulated, quiet and earthquake resilient building was completed in early 2016. This new clinic is easily accessible to all of the surrounding communities and was fully built and functioning within 14 months of the earthquake. Once again, it is a valuable asset to this remote area of Nepal.

The Deurali Community Service Center (DCSC) is operated by a village non-profit board that is registered with the Nepali Government. All funds paid by CCF for medical supplies and staff salaries are transferred to the board treasurer Dhane Gurung and distributed by their board. In 2015 after 2.5 years of hard work by former CCF board member Sita Gurung (who sits on the DCSC board) the clinic was formally recognized as a "model clinic" by the government of Nepal and DCSC entered into a public-private partnership with the Nepali government. Under this arrangement the government pays a portion of the salaries of 2 of the clinic staff for 9 months of the year and provides so me medicines and supplies. CCF provides for a portion of the salries for 9 months of the year and the full salaries for 3 months plus 1 month of festival allowance. CCF also provides for the maintenance of the clinic building itself as well as any extra amenities that the government does not provide.

The clinic currently has a staff of 3 dedicated women:

- 1) Maya Gurung, an Associate Nurse Midwife (ANM) with 5 years experience working in a government clinic delivering 30-35 babies per month. She is on call 24/7 for birthing and maternity issues only.
- 2) Basanti Gale, a Certified Medical Assistant (CMA) who previously worked for 4 years in a private clinic as a nurse after which she spent 3 years at a government clinic. She works 10-3 and treats primary care issues such as diarrhea, coughs, bronchitis, boils, eye problems, fever allergy, ringworm and some burns.

3) Sita Gale who is Maya and Basanti's assistant and does all of the cleaning, opening and closing of the clinic and takes care of staff and patients needs.

In 2017 the clinic was staffed from 10am-3pm 6 days a week with the nurse midwife on call 24/7 for pregnancy related issues. There were over 3000 patient visits, an average of 10 people per day. Treatments include IV rehydration, fevers, minor burns, rashes and other primary care issues. CCF's costs for maintaining the clinic in 2017 was \$2840 which equates to about .95 cents per person cared for. Because of the limitations of the facilities, the clinic staff does not perform operations and x-rays so they had to refer and transfer some patients on to more advanced facilities in Dhading and Kathmandu.

Line 30) Girl's Higher Education (class 11/12) Scholarships-\$2,000 Grant

Impact: 3 young Nepali women in 2017 got a total of \$1000 grant toward higher education. \$1000 was set aside as reserve for future stability and growth of the program.

In 2014, CCF and ACP wanted to encourage merit and need based girls to continue on to college (11 and 12th class in Nepal) and provide younger girls with examples of older girls going on into higher education. One of the girls who had inspired CCF's power of 5 program was the first recipient of a 2 year scholarship for college. This program reflects and supports CCF's and ACP's vision to give Nepali girls, who have the need, ability and desire, the means to continue their education past the 10th class.

Every year CCF raises money for a \$2000 grant that is administered by ACP. The grant provides a \$1000 scholarship to one or more girls who apply based on need and merit. The grant also provides \$1,000 in reserve for the program to provide for the financial stability and expansion in the future. The scholarship is exclusive to girls seeing to go on to the 11th and 12th class and the girl scholar recipient must have one parent that works at ACP. The emphasis of the scholarship award is to grant it to the most outstanding girl scholar with the greatest need but all applicants must have passed the Student Leaving Certificate exams with distinction (80%).

Since 2014 the Girl's College Scholarship program has been funded entirely by CCF. In 2016, however, ACP decided to institutionalize this program which will allow them to seek funding from other donors and means that they are fully invested in the future of this program as well as its expansion. As with the Child Education program, the College Scholarship program is administered by Meera Bhattarai and Revita Shrestha of ACP.

As the Child Education Fund and Girl's Higher Education Fund of ACP have both grown in recent years the administration and reporting requirements have grown along with it. Also, there has been an increasing awareness that some of the children involved need mentoring in how to do their homework and plan their future into higher education. In August of 2017 ACP and CCF agreed to hire a young woman graduate of higher education and split the salary to provide a full time administrative position as an employee of ACP. This position is intended to help oversee the education programs, report to CCF and ACP and mentor and counsel the girls as they move through the educational system and puberty.

Line 31b) Ghatbesi Girl's Higher Education Program-§1200 grant

Impact: 7 rural need and merit based girl scholars receive scholarships to go on to class 11/12

Grantee: Jageshwor Secondary School, Gorkha District Bhimsen VDC, Ward 8, Ghatbesi-Mahadevtar, Nepal

Administrator AD Aryal

CCF is strongly committed to creating educational opportunities for girls in Nepal, especially those who come from marginalized families or rural villages. Through Mr. AD Aryal, CCF was introduced to the village of Ghatbesi and engaged in a pilot project to help the communities girls advance on to higher education. Mr. Aryal explained that although the village of Ghatbesi has a strong commitment to girl's education through the 10th class, the financial situation of the families and the costs of further education often prohibit girls from moving on.

In 2016 CCF agreed to provide funding for 7 merit and need based college scholarships to the top girl scholars of Ghatbesi. The Ghatbesi scholarships provide 6 scholarships to local schools at \$100/year and one \$600 scholarship for an exceptional girl student to attend college in Kathmandu. Each year CCF pays \$1200 and we will renew our commitment every 2 years based on the results of this pilot project.
